UNISON
HomeBuyer™

Hi <Name>

We're Unison and we can help you achieve your dream home in half the time you thought possible.

No only can we make your down payment bigger, in most cases we can even double it and you can pre-qualify in minutes at **unison.com/buynow or call 1.800.316.4694**

This isn't a loan. So there are no monthly payments to keep track of. And because a larger down payment can help you avoid paying PMI – you could save hundreds of dollars per month.

In exchange for our investment, we simply become partners when you decide to sell your home. So we'll share any increase in value, and any decrease too.

Sincerely,

Bill Walker

Hi <Name>,

We're Unison and we're re-inventing home buying.

You can now buy your perfect home in half the time you thought possible. That's because we can contribute half of the down payment, and the great news is that you're already pre-approved.

Here's how it works: we invest alongside you by providing down payment funds that you don't have to pay back for 30 years. There are no interest charges or monthly payments either¹.

In exchange, we share in the change in value of your home when you come to sell. And if it's decreased in value when you decide to sell, we share in the loss too².

It's how we believe financing your home should be, and it's why there's no one quite like us.

To find out more about doubling your down payment go to **unison.com/buynow** or give us a call on **1-800-316-4694**.

Sincerely,
Kari McCormick
