

## What Plume brings you

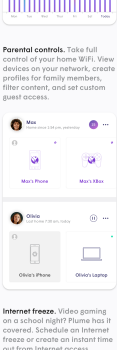

**Easy to use.** Connect a Plume SuperPod to your TalkTalk router, plug in other SuperPods where you need WiFi and watch the connectivity unfold.

**Highest rated WiFi app.** The Plume app is an intuitive hub for all things home WiFi — monitor performance, toggle parental controls and secure your network, all from your phone.

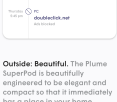

**Adaptive Home WiFi.** Plume intelligently adapts to your network to deliver enhanced connectivity where you need it, when you need it.

**Parental controls.** Take full control of your home WiFi. View devices on your network, create profiles for family members, filter content, and set custom guest access.

**Internet freeze.** Video gaming on a school night? Plume has it covered. Schedule an Internet freeze or create an instant time out from Internet access.

**Added security.** Plume protects your family's online experiences through an added layer of security that detects and blocks viruses, phishing, malware and more.

**Outside: Beautiful.** The Plume SuperPod is beautifully engineered to be elegant and compact so that it immediately has a place in your home.

**Inside: Powerful.** The SuperPod's revolutionary tri-band design makes sure every corner of your home gets the strongest signal possible.
